

We want to protect our employees from health hazards caused by contaminated apparatus. We therefore ask for your understanding that we cannot carry out any repairs unless this declaration is completely filled, signed and submitted.

Article description: _____ Serial-number: _____

Customer / adress: _____ Contact person: _____

Repair order: _____

The undersigned hereby declares:

- ◆ that the apparatus pose no risk through biological, chemical or radiological contamination.
- ◆ that the apparatus have been carefully cleaned and decontaminated before shipment. Potentially existing dry or liquid residues can be removed, where necessary, safely with water. Hot air drying afterwards is harmless. Rinsing water and residues can be drained in the sewer system.
- ◆ that in case of glass repairs, the heating of the rinsed and dried parts to approximately 600°C over a long time is harmless regarding danger of explosion, formation of harmful fumes and the like. And that following processing by glass blowers at approximately 1200°C with open flame can take place safely.
- ◆ that if scrapping is necessary, the parts to be scrapped can be disposed harmlessly like normal waste.
- ◆ to be authorised to make such declarations on behalf of the company/institution represented.
